

Artificial Grass 21

GRASS SPECIFICATION

Grass Name

Grass Synthetic Multi Soft 21

Premium fibrillated synthetic surface suitable for Hockey & Multi-use. Featuring our specially developed Bond polyurethane coating technology.

Application

Hockey & Multi Sports Use

Colour

Turf green

Product Description

Premium polyethylene fibrillated

Product Benefits

Dense, durable and resilient system

Yarn Type

Heavy-metal free, UV stabilised, polyethylene fibrillated

Yarn Structure

8,800 dtex fibrillated

Tuft Characteristics

Pile Weight

994g per m2

Pile Height

21mm

Number of Stitches

23 per 10cm

Machine Gauge

3/8"

Backing Characteristics

Primary Backing

Backing structure

2 x woven polypropylene primary backings

Secondary Backing

Compound base

Bond polyurethane

Colour

Grey

Coating Weight

600g per m2

Particulate Infill

Sand Type

Silica sand at 0.2-0.7mm

Recommend Infill Ratio

20 - 25kg per m2

Width

4m

Length

Up to 65m

Total Product Weight

1,817g per m2
