TODDLER TOWERS

Puffin Toddler Tower

The Toddler Towers are vibrant freestanding play units, eliminating installation fees and making them an ideal choice for nurseries and pre-school settings. These units offer endless opportunities for creativity, exploration, and active play. The Robin toddler tower features a chalkboard, timber rung ladder, small climbing wall, window bridge, and an HDPE slide, while the Puffin boasts two tunnels, a balance bridge, and chalkboard. These are just two of our Toddler Towers, each uniquely designed with different elements to entertain and support young children's development, ensuring there's a perfect fit for every play space.

THE HAIG DAY NURSERY

"It was so nice to meet some of your team that had a input of making the equipment it has felt like a personal tailored project from start to finish. All the equipment is finished to a very high standard and thanks to everyone involved."

The project at Haig Day Nursery began with an initial visit, with installation starting two years later due to the fundraising efforts needed to bring the vision to life. An empty tarmac space has been completely re-imagined into a vibrant play area, offering a safe and engaging environment for young children to explore and enjoy. The newly transformed area features soft artificial grass for added comfort and safety, a playful tractor with trailer to spark imaginative adventures, and a construction zone shelter, perfect for hands-on creative play.

THE BRAMBLES NURSERY

In May 2022, we discovered a fundraising effort by Molly from The Brambles Day Nursery, who was hiking Pen y Fan to raise money for a play area upgrade. Inspired by her dedication, we reached out to offer funding resources to support their goal.

By late June, the nursery invited us to discuss their vision. They wanted to transform their bark pit area with our Mulberry Toddler Tower and replace their existing wicker huts with Tipis, along with additional surfacing in a new location.

"We are extremely happy with the service from start to finish. Installation was quick and the team was polite and understanding. They went the extra mile and we highly recommend. Thank you for the stress-free service."

ACORN DAY NURSERY

"We couldn't recommend your company more! From start to finish communication has been fab! It has been easy and straight forward. The installation team were brilliant so hard working, professional and great with our children. Can't wait to have you back again! Thank you."

EARLY YEARS FOUNDATION STAGE

Messy Mud Kitchen

WATER, SAND, MUD

Create a sensory play space with our products designed to explore water, sand, and mud! Get started with our **Messy Play Bundle**, featuring the Messy Mud Kitchen, Sand Pit with Play Lid, and Water Tray on Wheels. Sensory play is a fantastic way to keep kids engaged and learning. Explore our website for more ideas!

Splash into learning with our Magnetic Water Wall! This innovative play system features movable, magnetic components and a built-in wipeboard, perfect for introducing engineering concepts as part of STEM education. Children can design and build their own unique water runs, fostering problem-solving skills, scientific exploration, and hands-on learning. The included pump ensures a continuous flow of water, while extra gutters and HDPE brackets expand building possibilities, providing endless opportunities for creative play.

Encourage growth through play with our EYFS product range, designed specifically for nurseries and pre-schools. From sensory-rich items to imaginative play structures, each product fosters key skills like communication, motor development, and social interaction—creating the perfect foundation for young learners.

One standout from this range is the Secret Garden play area, a fully inclusive and accessible unit designed for children of all abilities. It features nine interactive panels, an imaginative tunnel, a covered seating area, and an eco-friendly design crafted from durable recycled posts. The interactive elements encourage sensory engagement, collaborative play, and endless exploration, making it a haven for creativity and development.

Dress Up Trolley & Grass Stage

BUILD YOUR OWN

Building through play is a vital way for children to develop creativity, problem-solving, teamwork, communication, planning, and imagination skills. Our Build Your Own range of freestanding modular play equipment empowers children to design their own play spaces, agility courses, and games.

Featuring versatile components like those in our Venture Blox collection, children can construct trails, climbable structures, and imaginative play environments, fostering early engineering skills and spatial awareness. This hands-on approach to play encourages collaborative learning, enhances physical development, and provides endless opportunities for active fun and exploration in any setting.

PLAY TOWERS

Our Play Towers provide a wide range of exciting options in various sizes, each thoughtfully designed to promote imagination, development, independent play, and teamwork while fostering communication skills.

Take the Mulberry Tower, for example—perfect for children up to 6 years old. It features a slide, fireman's pole, pull-up ramp, and two connecting bridges, helping to build upper body strength and encouraging active exploration. These versatile towers are ideal for public play spaces, offering both fun and developmental benefits.

THE BUTTS PRIMARY SCHOOL

The early years garden at this primary school had become tired and worn after years of use, and it was time for a change. The school approached us to explore options while working hard to fundraise for the project. Surrounded by trees and natural beauty, the garden deserved to retain its rural charm while evolving into a space that would enhance the children's learning and development. During our initial meeting, we brainstormed ideas, such as a performance stage to replace the makeshift step and chairs the children had been using.

At the far end of the garden, the natural surroundings inspired us to design a zone for outdoor learning. Among the trees, we created a Dig Pit complemented by a Messy Mud Kitchen, Mini Potting Table, and Planters, fostering hands-on engagement with nature. To spark imaginative play, we transformed the existing playhouse into a Mini Corner Shop, while a cosy Reading Den offered a quiet retreat for shared stories. The new space blends natural charm with stimulating play opportunities, providing a vibrant environment where creativity, collaboration, and learning flourish.

THAKEHAM PRIMARY SCHOOL

Thakeham Primary School transformed an overgrown area into a vibrant outdoor space. For Years 1 and 2, we created a sandpit, mud kitchenette, and sheltered play zone with Hazel Hurdles for privacy. Years 3 and 4 enjoyed picnic benches under tree shade in a natural setting. An overgrown flower bed became an outdoor classroom with a deck, polycarbonate shelter, and seating for all-weather learning.

KEY STAGE 1

Our Trim Trails offer a dynamic range of equipment that can be combined to create exciting agility courses, perfect for testing children's climbing, balance, and coordination skills. From rope climbers to balance beams, each element is designed to challenge users, helping them build strength, confidence, and motor skills. Customisable and versatile, our Trim Trails are ideal for creating active, skill-building play spaces in any setting.

Birch Treehouse Towers

Our Tree Houses and Play Towers inspire imagination and active play with slides, bridges, and climbing features. Perfect for creating adventurous outdoor spaces, they offer endless fun and developmental benefits for children.

Ash Treehouse Towers

The Bunting Play Towers

Bring your vision to life with our range of themed and bespoke playground creations. From pirate ship play units that spark high-seas adventures to tractor and farm-themed areas perfect for rural charm.

We can design spaces that captivate imaginations. Add interactive elements, like sensory play panels, to enhance engagement and learning, or finish your space with custom-engraved signs for a personal touch. Whether you're looking to add unique details or design an entirely themed play area, we'll work with you to create something truly special.

MULTI GOALS & OUTDOOR CLASSROOMS

Create dynamic play and learning spaces with multi-goal units featuring varied scoring options to challenge precision, teamwork, and motor skills in games like football and basketball.

Outdoor classrooms offer sheltered, customisable spaces with seating, walls, and flooring, perfect for all-weather learning, play, and connection with nature in schools and nurseries.

WHITELEY PRIMARY SCHOOL

Whiteley Primary School wanted a play area where every child, regardless of ability, could play together and enhance their creativity and communication skills. Inspired by historical ruins, we designed Whiteley Folly, a timber structure with wide, unobstructed passages for wheelchair access and multiple entry points for imaginative play.

The children named it “Whiteley Folly,” reflecting its endless possibilities. In addition to a mini corner shop, play panels, and den posts, we incorporated a Trim Trail to encourage physical activity and teamwork. A Performance Screen and Play Castle were also added to foster imaginative and performance skills.

HOCKLEY PRIMARY SCHOOL

We transformed Hockley Primary School with a 5m gazebo featuring decking, bench seating, and an access ramp, plus bright apple green wet pour surfacing and a picket fence to protect the space. After the Easter holidays, we returned to upgrade the adventure zone, replacing outdated equipment with The Westbrook Keep, a stunning four-tower castle play unit. Blending with the wooded surroundings, it offers rock holds, rope bridges, a timber tunnel, slide, fire pole, and more for endless play.

The new play area also includes low-level trim trail items and black wetpour safety surfacing, all installed on steel feet for durability. Designed for both physical and imaginative play, The Westbrook Keep offers endless fun for children of all ages. The project was completed in under two weeks with minimal disruption, providing a fresh, exciting space for play.

KEY STAGE 2

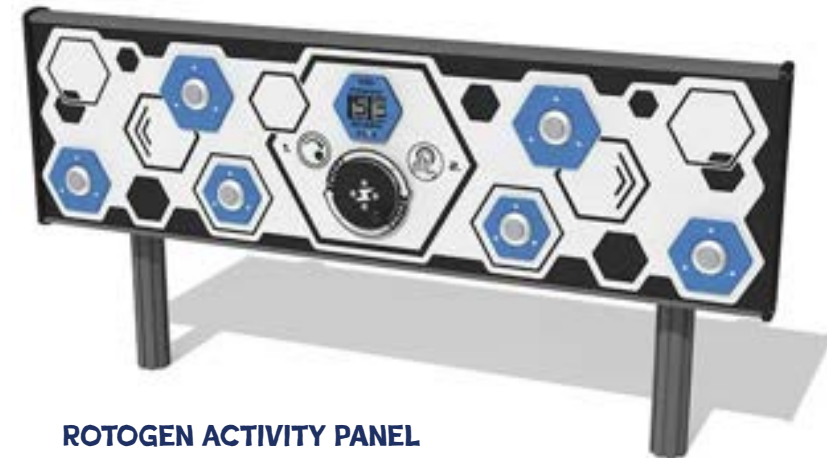

Our log climbers are an excellent choice for any play area, providing a natural and challenging way for children to develop strength, balance, coordination, and gross motor skills. These durable climbing structures not only promote physical activity but also inspire imaginative play, encouraging children to create their own adventures while staying active and engaged.

OUTDOOR FITNESS

Our extensive range of outdoor fitness options include sports courts, fitness play units, activity panels and more, designed to promote physical activity and healthy living. Whether you're creating a multi-use sports area or adding fun, challenging equipment to a playground, our solutions cater to all ages and abilities. Durable, engaging, and ideal for enhancing active play, these options transform any space into a fitness-focused environment.

ROTOGEN ACTIVITY PANEL

STORAGE SOLUTIONS

Our range of storage options is designed to keep play areas and school grounds organised and clutter-free, supporting independent selection and easy access to learning resources, role play items, and loose parts. From durable sheds for storing play equipment to secure units for outdoor learning materials, our solutions are tailored to meet the unique needs of schools and nurseries.

PLAYGROUND MARKINGS & SURFACING

Enhance your play area with our vibrant playground markings and a variety of durable surfacing options, designed to boost play value and ensure safety. From fun games and educational designs to high-performance surfacing solutions, we help you create dynamic, engaging spaces tailored to your needs.

Our surfacing options include rubber grass mats, Agriflex, Tiger Mulch, Flexistone, and Flexipour, each offering unique benefits such as durability, safety, and aesthetic appeal. These customisable surfaces are perfect for creating safe, vibrant, and functional play spaces that inspire children's creativity and active play.

LANGSTONE JUNIOR SCHOOL

"Great experience from the design stage to completion. Staff were very professional, offering a great service with many bespoke options to choose from. THANK YOU!"

In autumn 2021, Langstone Junior Academy approached us to replace their well-loved Trim Trail, which had served the school for over 15 years. The old trail, showing signs of rot, needed an upgrade while maintaining the familiar play value. The school wanted a more challenging design that also allowed for smooth movement between pieces. We proposed a new layout featuring ten trim trail pieces, with the Bear Creek Play towers as the focal point. Designed to encourage climbing and imaginative play, the new trail offered a seamless flow. The equipment was installed on steel feet to prevent ground rot and extend timber life. The project, including removal of old equipment, was completed in just over two weeks.

MARNEL JUNIOR SCHOOL

At Marnel Primary School, we installed the Alpine Peaks play unit along with a versatile shelter featuring benches, creating a dynamic space for both physical activity and relaxation. The Alpine Peaks is specifically designed to improve coordination, upper body strength, and promote independent play. This exciting play unit features interconnected platforms, rope climbers, rockhold and ladder walls, bridges, a fire pole, and an HDPE slide—offering endless opportunities for active and imaginative play.

It's the perfect addition to any play area, encouraging children to develop essential physical and social skills while having fun.

The shelter was designed specifically as a reading space, the seating is thoughtfully arranged to encourage independent reading and provide a space for children to sit together, fostering communication skills and collaborative learning.

This inviting area not only supports literacy development but also serves as a hub for creative group discussions and quiet reflection, enriching the outdoor learning experience.

Alpine Peaks Play Tower

"We as a Junior School, value play time and the team have made the children's play time experience a place to be. They were asked to supply and build a unit to push the boundaries for our children to give them a unit that was fun and challenging; the team did this and more. The children love play time and love the new equipment that was installed, it has given the playground a new lease of life. The staff are superb, from design to fit they have been amazing and I would recommend them for your new equipment and the future servicing of your new equipment."

INSPECTIONS & MAINTENANCE

Ensure your playground equipment stays safe and in top condition all year round with our comprehensive maintenance services!

Our maintenance plans include:

- Inspection for wear and tear
- Upgrading & replacing components
- Compliance with safety standards
- Extending the lifespan of your play equipment

We are dedicated to keeping your play areas safe, functional, and enjoyable for everyone. Get in touch today to discuss how we can support your playground's maintenance needs!
