

**We invite  
mankind  
outdoors.**

# Wellbeing belongs to everyone - Lappset keeps people moving!

We invite people of all ages to come out to play, move and spend time together. Wellbeing belongs to everyone, and therefore our strong mission is to develop the areas which enable the lifelong joy of exercising. For over 50 years, we have been enthusiastic and inspired about playing and exercising, creating playgrounds, school courtyards and communal sports facilities around the world.

### Create a bold combination

We are delighted that you are joining us on our journey. Our products will provide you with unlimited opportunities to create environments where everyone is happy and can unleash their imagination. By combining different product groups, you can design a comprehensive whole, where play equipment, sports facilities and park furniture create a space where everyone will want to come. There is no need to differentiate between a playground and a gym; the child's play and parent's training, as well as a picnic site for the whole family, can all be found in the same park.

### Responsible development work and creative solutions

We are taking responsibility for the environment, economy and people. Our long experience and development work and our strong mission ensure that our play and sports equipment are among the best and safest in the industry. Creativity is important in both play and product development, and that is why we always want to offer new, unique solutions that inspire people of all ages. The impressiveness, comfort, communality and functionality are combined in our products to create a sense of accomplishment and shared experiences for everyone.

We will provide you with a comprehensive package where, in addition to the design service, we can also be involved in the servicing and maintenance of the park. Our comprehensive add-on services enable the playing to continue in a fun and safe way throughout the years.

With Lappset, everyone moves on their own terms together or alone!

# Let's create unique playgrounds together

MyDesign! design service helps you create unique themed products. Discover inspiring and unique play equipment:  
**[lappset.com](http://lappset.com)** and **[mydesign.lappset.com](http://mydesign.lappset.com)**

# Play

## Learning and joy from play!

Everywhere in the world, children play if given the chance. A safe and inspiring playground supports learning and a child's holistic development. It feeds creativity, strengthens the ability to concentrate and develops social skills and motor functions.

Our basic philosophy is to provide children and their parents with a chance to play and exercise together. Our climbing frames, slides, carousels, spring riders, sandboxes and numerous other play equipment offer memorable moments for all ages.

## Inclusive products

We want to create environments that are open to all. Our inclusive products allow everyone to move on their own terms. You can recognize these products in the catalogues from the yellow sun symbol.

## Symbols

# Moomin Play by Lappset – The Moomin-house welcomes everyone

Lappset's first Moomin-themed playground complex is the Moominhouse yard. The Moomin playgrounds located in public parks with free entrance are open to everyone. They invite the Moomin lovers of various ages to play with friends and marvel at the charming fairy-tale world.

The tall Moominhouse on the playground can be seen from afar, and with the surrounding hammock, arch bridge, flowers, rocks and a flowing brook, it creates a captivating environment for countless adventures. The Moomin bring together people with playful minds across generations. The Moominhouse is a timeless and elegant choice for any playground. – Rest assured that the Moominhouse will continue to attract visitors even from further away decade after decade.

# Premium - Tales that create great experiences

Premium is the right choice for you when you want to build more than a playground, a great experience that will attract visitors even from far away. Our experienced team of experts combines architectural elements, art and play in innovative ways, creating memorable experiences. Fun, safe and high-quality play solutions ensure that you distinguish yourself from your competitors in a personal way.

Our team will help you create a wonderful play area where the whole family will enjoy spending a lot of time together. We are by your side through all the phases of planning, production and installation. It couldn't be easier to create your own artwork full of playfulness!

# Halo - design brings joy to playing

The design-award winning Halo is a delight to the eyes of both children and adults. High-quality materials such as pine, steel, laminates and special plastics are durable, and Scandinavian design brings a flare of modern elegance to the world of play.

Halo is suited for the urban play environment, and consists of gracefully matching modules. The design has considered the lighting of the structures around the clock.

Halo Cubic gives you a multitude of possibilities for building a variety of entities and also extending the playground upwards. Halo Diamond is an exciting new option that will transfer play to a completely new plane.

*The design of the Halo range was awarded with the German Design Award in 2016.*

# Wall-Holla - let your imagination fly high!

Wall-Holla brings play to a new level. In a modern climbing frame, persons of different age enjoying play are able to have an adventure inside a safe steel structure within several different floors. Platforms and steps affixed to the external surfaces make up an almost endless network of possible routes, and progressing in this system improves balance, decision-making abilities and imagination.

Wall-Holla is a functional solution even for smaller spaces. With its striking design, Wall-Holla is an exciting and yet practical eye-catcher at the same time.

Designed by Carve.

# Flora - a fairytale forest in the heart of the city

Step into the world of fairies and goblins. Inspired by nature, the Flora playgrounds blend harmoniously with their surroundings and are at their best in a parklike environment. The organic forms from nature are visible in the softly undulating roofs and lines of the equipment. The dark-stained tight-grain pine lends the playground a mystical atmosphere similar to one you would find in the Northern forests. Flora offers options for playing and exercising for the whole family.

Installation of the products, replacement of spare parts and maintenance have been made as easy as possible. At the same time, Flora is an environmentally friendly choice.

# Finno - the colourful classic of playgrounds

The Finno playground equipment collection has been designed together with the users. In its form language, it is open and airy, and positively invites you to play. Most of the products are available in five predefined colour schemes to make your selection and design work easier. You can also customize the product completely to your own liking, as Finno offers a myriad of different combinations.

Scandinavian lines and harmonious colour schemes can easily be combined with other product families, such as outdoor sports equipment. This makes it easy to create playgrounds that cater for users of all ages. One of our basic philosophies is to provide children and their parents with a chance to move and exercise together.

Choose from five ready-made colour themes, or design your own colourful solution!

# Theme play - creating platforms for children's stories

Get on board or fly on a helicopter! Fun and inspiring theme play equipment adhere to familiar topics in imaginary ways. The collection offers spectacular play solutions that will keep imagination running for years to come. You can easily combine themed products also to other collections.

Themed playgrounds are a great way to highlight local environment in playground design; for example, by building a great playship near a harbour or on your own railway station in an urban environment.

# Clover - durability and affordability

The retro-style Clover collection is durable, affordable and almost maintenance-free. In Clover playgrounds, children can engage in the most traditional play activities. They can use their energy for climbing, hanging, balancing, swinging and sliding.

The easy-to-install Clover blends well into the surrounding environment both in terms of colour and design, especially when located in natural surroundings. The products can easily be customized and combined into versatile playgrounds or track-type solutions.

# Cloxx – a playground with street cred

Cloxx products are made to withstand heavy wear and extreme conditions. They have been designed to look at home in the urban concrete jungle and they offer enough challenge to meet the demands of even the most exacting dare-devils.

Cloxx playgrounds encourage diverse mobility. They are exciting and look sufficiently streetwise even to those who have reached the age when cuddly things just will not wash anymore. The vivacious shapes and geometrical structures of Cloxx products challenge the children to come up with new routes and to develop new worlds for their play. Cloxx is conveniently carefree and stays tidy-looking and safe for a long time without any major maintenance.

# Cloxx Parkour - imagination and motion taking off

Cloxx Parkour products encourage urban and imaginative space exploration. The durable and maintenance-free products provide inspiration to parkour enthusiasts of all ages, and are an excellent choice for an urban environment. The Cloxx Parkour products conform to the European Standard for Playground Equipment EN1176, so they are also suitable for school yards and playgrounds.

By combining Cloxx Parkour products in Cloxx playgrounds, the area can be easily shaped as a common hangout for all ages. The lively shapes and sturdy structures of the products allow the imagination to take off in both play and movement.

# Solitaires - fun equipment to spice up the playground

The playground classics add to the fun of the park and complete the enjoyment experience. Individual products fit into larger entities or lighten up play areas as stand-alone equipment.

The fun rocking animals can tolerate almost any amount of rough riding, but they are also suited for the smallest of children. Extra fun to the park is brought by different types of seesaws, balancing stands or a volt machine that makes your head spin from both the fun and the movement.

# Use SoftBlock elements to create colourful and functional environments

We will provide you with the safest rubber granule products of the highest quality.

The TÜV SÜD-certified products have passed the tests conducted in accordance with the Playground Equipment Standard EN1176:2008. It guarantees that the rubber granules and binders used for playground surfacing do not contain any substances hazardous to health. Part of the material used is recycled rubber, and it can be recycled further. From the perspective of accessibility, rubber granule products are easily accessible, and they can be used for creating a variety of surface contours and fun balancing routes.

### Dyed recycled rubber

The material is made of recycled black styrene-butadiene rubber (SBR) granules and dyed PU polyurethane binder, no RAL codes.

### EPDM rubber

EPDM is a synthetic rubber material that does not wear in use, because all the granules are dyed through. The coating of EPDM products is EPDM rubber and the inner parts are dyed recycled rubber. The products have been divided into two different price categories: EPDM 1 and EPDM 2.

#### EPDM 1

#### EPDM 2

The new, unique SoftBlock products are suitable for being used as benches, space dividers and balancing tracks, among others. They can stand alone, or they can be combined into different assemblies in such places as sidewalks, shopping malls or parks. Build your favourite combo from a wide range of colours. Indoors, the products can be glued directly to the base. In outdoor use, the elements can be mounted on concrete or installed, for example, on a rubber base. If you need deep foundation, you can order the necessary installation parts from Lappset.

# Interactive Play - Digital interaction and experiences outdoors

We see interactive play as the bridge between the digital and the real world, like gaming in the physical world. The gaming world offers imagination, learning, fun, variety, the excitement of reaching the next level, and the possibility to adapt levels to an individual player. The physical world brings physical activity, social interaction, community involvement, and the rewarding feeling of being outdoors. Combining both worlds brings our development to the next level. We consider interactive play the best of both worlds appealing to people of all ages.

PARK

## Exercising is a shared activity

A well-designed outdoor sports facility brings people of all ages and fitness levels together. Good muscle strength also prevents injuries and helps to maintain functional ability as we age. When training is safe and fun, up to three generations can share the fun in an outdoor sports area at the same time.

Outdoor gym equipment, parkour equipment and senior sports products create modern and versatile training conditions, regardless of age and fitness level. By combining equipment from different product groups, you can create an inspiring local outdoor fitness area for both everyday exercisers and active athletes.

## Inclusive products

We want to create environments that are open to all. Our inclusive products allow everyone to move on their own terms. You can recognize these products in the catalogues from the yellow sun symbol.

## Symbols

-  Product measurements. Length x width x height (mm)
-  Area of movement, length x width (mm) (EN16630)
-  Area of movement (m²) (EN16630)
-  Fall height (mm) (EN16630)

# Sisu Fitness - more strength and endurance

Whether it rains or shines, Sisu Fitness will guarantee you a proper outdoor workout. With the Sisu Fitness equipment, everyone can create themselves a suitable, comprehensive and challenging muscle fitness program with movements that are not only easy but safe and fun. The stepless resistance adjustment makes the equipment suitable for all exercisers regardless of their fitness level. After building some muscle strength, increasing the adjustable resistance adds motivation to exercise even more.

The brave design of Sisu Fitness equipment pleases the eye and fits in perfectly to urban city environment. High-quality materials ensure that the equipment withstands both hard workouts and changing weather conditions.

# Fitness - a perfect workout for everyone

The Fitness equipment allows people of various levels of fitness to get a complete functional workout. The motion variations allow a fitness enthusiast to get a versatile training to build strength, stamina, speed and coordination. The equipment comes with info signs which have QR codes for viewing illustrated exercise instructions and videos in the form of a virtual coach.

The Fitness products feature four vibrant colour schemes which can be easily combined as impressive and inspiring themes. Wood and metal as materials create a durable framework for a tough workout.

# Street Workout - bodyweight training and impressive strength

The Street Workout equipment enable effective and versatile bodyweight training. A compact training area can be adapted to even a small space because, for example, dip bars, chinning bars and pull-up bars are integrated into a single unit.

The Street Workout equipment have been developed in cooperation with the Finnish Street Workout association, and they are suitable for urban courtyard environments, playgrounds and jogging trails alike.

Choose from four ready-made colour themes, or design your own colourful solution!

# Classic Sport - timeless durability

The Classic Sport equipment is an ecological and affordable choice for all environments. The equipment allows a fitness trainer to perform a muscle strength routine suited to his or her fitness level and to diversify the movements, for example, by means of an elastic resistance band.

The name of the series refers to classic, time-enduring basic exercises and timeless design. The pressure-treated wood and grey metal as materials are long-lasting and easy to maintain. By combining equipment, it is easy to construct a training area for runners to train their muscle fitness as well as a small-scale obstacle course or a street workout area for schoolchildren to enjoy.

# Gym - outdoor gym training

Gym training with a good supply of fresh air. The design of each piece of Gym equipment is so simple that it automatically steers people to do the exercises correctly, which improves safety and motivation. In the exercises, the trainers themselves function as the engine and the weights.

The fresh colour options are lime, grey and white which provide a wide range of possibilities for designing the area. The equipment can be easily serviced, and they have been manufactured from wear- and weather-resistant materials.

You can choose from three different colours for Gym products:

Gym products are surface mounted, excluding Pull Up 081003M and Dip bar 081007M, which can be either surface or deep mounted.

# Senior Sport - functional capacity for everyday life

The Senior Sport equipment maintain and improve the muscle tone, mobility and motor skills of the elderly. The exercises are designed to strengthen the ability of seniors to function in everyday life, such as climbing stairs, bending or walking on uneven surfaces.

Our mission is to have people of all ages moving. A fitness session also adds to the social dimension, as the Senior Sport area is a natural way of spending time together for all generations from grandparents to grandchildren.

Senior Sport equipment is inclusive.

# Dash Parkour - uninterrupted movement and rough training

The goal of parkour is to achieve smooth, uninterrupted movement in an impressive manner. This communal hobby develops creative movement, body control and interaction with the environment. Dash Parkour equipment is designed in cooperation with Parkour Academy. The equipment offers enthusiasts a training place that conforms to the requirements of the sport where it is safe and permissible to hone the movements.

Parkour areas fuel our imagination and provide a wide range of possibilities to use different kinds of movement routines and route options for all ages. In the design of the area, you can make use of ready-made area designs or turn to the Lappset's MyDesign service, where our designers collaborate closely with the sport professionals.

*Dash Parkour equipment are designed according to SFS-EN 16899:2016.*

*When the falling height is less than 1 600 mm, there is no requirement for impact attenuating surface (IAS). The free height of fall shall be determined from the top of the equipment.*

# Lappset Tag - catch me if you can

Dash Parkour Tag game areas will raise playing tag and “the floor is lava” to a whole new level. The familiar rules of the games are the same as always, but the ready-made game area entities make playing much more fun. Everyone can play according to their own skill level and imagination.

The surface of the rough and durable equipment is made of non-slip material. With this equipment, you can create a game area that promotes both imagination and agility – in a school yard or perhaps a park. Last one squatting is the first tag – let the game begin!

## 081790M TAG 1 – High and low

Size: 10.9 x 9 m

**Products:**  
081702M, 081712M, 081720M, 081721M, 081723M, 081730M, 081731M, 081736M, 910328.  
TAG 1 is designed to comply with EN16899 standard. Surface not included.

## 081791M TAG 2 – Over and under

Size: 9.8 x 9.3 m

**Products:**  
081702M, 081712M, 081720M, 081721M, 081722M, 081723M, 081730M, 081731M, 081735M, 910328.  
TAG 2 is designed to comply with EN16899 standard. Surface not included.

## 081792M TAG 3 – Low and fast

Size: 8.7 x 8 m

**Products:**  
081700M, 081701M, 021702M, 081703M, 081710M, 081712M, 081713M, 081720M.  
TAG 3 is designed to comply with EN1176 standard. Surface not included.

# Pumptrack - speed for all ages

Lappset Pumptrack is a track mainly meant for bikes. Skillful hobbyists can use track also with skateboards, roller-skates or wheelchair, for example. The pumptrack is built using modules with a durable wooden structure, and the surface of the track is designed for riding in almost any weather. We offer three pre-designed pumptracks.

081621  
Pumptrack S

Total length of track 36 m.

081623  
Pumptrack M

Total length of track 47 m.

081625  
Pumptrack L

Total length of track 67,5 m.

# Ball games and arenas - ball games offer opportunities for social activity at its best

Our range of urban ball game arenas offers durable street-credible options regardless of the sport. The compact Panna ball field is easy to acquire and place anywhere, such as a housing company yard or a local park. The metal structure tolerates rough use and changing weather conditions.

All the Lappset arenas are suitable for soccer, but with add-ons you can also extend it to suit floorball, basketball and volleyball. The sturdy wood-structured arena blends into its surroundings and invites you to play all year around.

Order the goals and stands for different ball games in the same delivery directly from Lappset!

# Park

## Style and functionality for everyday life

Beautiful and practical furniture will make a playground or outdoor sports area even more welcoming and versatile. The comfortable benches, tables and pavilions are made for those relaxed moments shared together. They call for a small respite also in shopping malls, inner courtyards and parks.

Our park and street furniture is manufactured in a variety of colour combinations, with high-quality materials that withstand time and wear. With elegant litter bins, planters, bicycle racks and dusting racks, you can easily transform the atmosphere from classic to modern or from rustic to romantic.

## Inclusive products

We want to create environments that are open to all. Our inclusive products allow everyone to move on their own terms. You can recognize these products in the catalogues from the yellow sun symbol.

# Benches, chairs and tables

Lappset's equipment includes furniture groups for all environments – playgrounds, parks and courtyards. With our functional furniture solutions, you can create uniform environments over large areas and transform outdoor areas into comfortable spaces. The beautiful benches and tables invite you to spend a leisurely time reading, having a picnic or just resting for a while in the midst of play.

## Furniture for all

We want to be involved in creating environments that connect people and bring joy to everyone. Our aim is that our furniture is suitable for all and accessible to all.

Availability is reflected in simple yet meaningful details: The high seat height and armrests help those with limited functionality and mobility to sit and stand up. A person in a wheelchair or an electric wheelchair may find it easier to use the table when it has one foot in the middle. The possibility to extend the table top of the picnic table from the other end is also an example of improving usability. The armrests can almost always be chosen as an accessory, and we can easily customize the furniture to suit the customer's wishes.

Inclusive products are marked with a yellow sun in the catalogue.

Seat height 446 mm. Designed by Arne Nilsson. Pine and EPD-varnished, powder coated, laser-cut sheet metal. Free standing, surface mounting or underground foundation with anchoring detail.

**708106**  
Foundation for park furniture

Includes 4 mounting plates and steel profiles.

# Litter bins, ashtrays and info signs

Practical and functional litter bins as well as informative signs increase comfort and security in public spaces. Correctly selected litter bins, ashtrays and signs fit to their surroundings and make public spaces complete.

From our comprehensive range you will find the best solutions for every location. Placement and dimensioning of litter bins and ashtrays should be considered carefully to keep the environment clean - popular parks have should be equipped with more bins than for example, along running trails.

Park signs should show all relevant information for the playground or sport park users: owner of the park, address, and phone number where to call in case of emergency or maintenance issues.

# Bicycle racks

Our beautiful and functional bicycle racks create order and comfort in the environment. Bicycle racks can be used to indicate the desired storage location for bicycles and to provide a safe option for cyclists to lock their bicycles and secure them from thieves. If you want a bicycle rack with more room for bicycles than indicated in the brochure; please contact us!

# Barbecues and firewood rack

Having barbecues is an integral part of summer, and makes a pleasant activity for all. We have a range of barbecues of different size and style, which are an elegant addition to residential areas, a campsites or playgrounds. The barbecues can be used with both wood or charcoal. The design allows you to find a place to cook all food on the grill grate above the embers. The barbecues are handmade from 5-mm powder-coated steel, making them long-lasting and safe in public use.

# Planters

Planters allow for gorgeous flower arrangements and greenery to flourish even in the midst of a concrete jungle. Our range includes planters made of steel, aluminium and wood to enhance the environment and improve comfort. Most of the planters have a built-in moisture barrier that will ensure your flowers and plants thrive.

# Fences, railings, bollards and tree guards

The design of all Lappset fences, railings, bollards and tree guards is beautifully classic, and they function as discrete partitions rather than barriers. The products increase safety and direct routes to run in appropriate places. The standup rails also function as a place of rest, something to lean against while waiting for a train or bus, or for the training session to begin at a sports park.

NF9200  
Ströget fence A

NF9035 Ströget rail B  
extension 900 mm

L x W x H: 2000 mm x 110 mm x 900 mm  
Extension for NF9034.  
Design: Jan Råntfors. Underground concrete foundation.

NF8000  
Ströget bollard 900 mm

Height 900 mm, diameter 108 mm  
Design: Jan Råntfors. Underground concrete foundation.

NF8005  
Ströget bollard 900 mm,  
removable

Height 900 mm, diameter 108 mm.  
Design: Jan Råntfors. Underground concrete foundation.

NF8010  
Ströget bollard 750 mm

Height 750 mm, diameter 220 mm.  
Design: Jan Råntfors. Underground concrete foundation.

NF8300  
Orbis bollard midi

Height 900 mm, diameter 89 mm  
Design: Sydväst Arkitektur & Landskap.  
Underground concrete foundation.

NF8301  
Orbis bollard mini

Height 650 mm, diameter 108 mm  
Design: Sydväst Arkitektur & Landskap.  
Underground concrete foundation.

NF8302  
Orbis bollard maxi

Height 650 mm, diameter 194 mm  
Design: Sydväst Arkitektur & Landskap.  
Underground concrete foundation.

NF8304  
Orbis bollard midi,  
removable

Height 900 mm, diameter 89 mm  
Design: Sydväst Arkitektur & Landskap.

NF7720  
Trosa trunk guard,  
surface mounting

Height 1500 mm, diameter 680 mm  
Design: Jan Råntfors. Surface mounting on ground grate.

**NF7721**  
Trosa trunk guard,  
deep mounting

Height 1 500 mm, diameter 680 mm.  
Design: Jan Råntfors. Underground concrete foundation.

Colour options for decorative  
ring on Orbis bollards:

- Dark green: RAL6021
- Yellow: RAL1004
- Green: RAL6017
- Red: RAL3020
- Blue: RAL6027
- Orange: RAL2008

**1 NF8300** Orbis bollard midi

**NF7730**  
Lilja ground grate

L x W x H: 1 400 mm x 1 400 mm x 40 mm  
Design: Jan Råntfors. Surface mouning or concrete slab.

**1 NF7721** Trosa trunk guard

# Dusting and drying racks

Practical and functional dusting and drying racks make it easy for you to care for your home and allow you to air and dry textiles in fresh air. The racks in our range are durable and sturdy, and they blend in with a great variety of yards due to their earthy colour options.

# Pavilions and pergolas

A pavilion is a cosy addition to a residential area, a park or a playground. Even a larger group of people can gather under the pavilion's roof to escape from the rain or heat. An open pergola is a multipurpose alternative that creates a green oasis in the yard environment when decorated with green plants.

# Softex® safety surfacing

## Oopsy daisy!

There are always a few accidents on the playground. Lappset safety surfacing is designed to protect children so that most dangerous looking situations turn out to be just harmless little scares.

The purpose of the safety surfacing is to prevent injuries resulting from stumbling or falling from heights. The materials conform to the requirements of the EN 1176-1 safety standard as long as you match the thickness of the surfacing correctly to the product's fall height. Fixed safety surfacing requires solid, level and water-permeable ground underneath. Different colour options allow you to coordinate the colour scheme of your playground from the floor to the tips of the equipment.

### Softex® synthetic turf

The strong base structure of the synthetic turf ensures a long-lasting product that can withstand repetitive freezing and rugged Northern conditions. The synthetic turf is available in many different colours and meets the requirements of the REACH regulation and, therefore, does not use chemicals that are harmful to health or the environment. We also offer lifecycle services for synthetic turf from installation to recycling.

### Softex® wetpour safety surfacing

Made from rubber shreds and a polyurethane compound, Wetpour withstands even abrasive wear. Colours can be laid out in ways that help partially sighted users find their way around. Wetpour safety surfacing is a recyclable material.

### Softex® safety tiles

Our safety tiles consist of colourful rubber granules that are glued together. The safety tiles are fast and easy to lay, which makes them a cost-effective floor solution. The tiles are mainly made of reclaimed materials, and they can be recycled again.

 Ask your local dealer about the different safety surface options. Materials may differ from country to country due to availability and climate requirements.

### Softex™ wood chips

Softex™ wood-chip mulch is a natural, dust-free and a non-allergenic safety surface. As a material, the mulch is attractive and easy to maintain, and it does not stick to children's clothing and end up indoors or wear the equipment like sand-based solutions. The mulch lasts for years and is easy and inexpensive to recycle at the end of its lifecycle.

### Other natural materials

Natural materials such as grass, sand, gravel and bark are popular and affordable materials for safety surfaces. Gravel is suitable for larger fall heights and grass can be used with lower play equipment. Natural materials are easy to apply but require regular maintenance.

# How to get a quote

Go to [lappset.com/products/product-search](https://lappset.com/products/product-search) where you can find all the products

Collect the desired products in the product cart

Enter any product modifications or additional information in the detail field

Submit a request for a quote

We will respond to you as soon as possible!

You can also contact your local Lappset representative directly. Please find our international distributor network here: [www.lappset.com/Contact-us](https://www.lappset.com/Contact-us). If you have already placed an order and need information on the order or delivery, please contact your local contact person or customer service.

## Delivery

Our products have been designed in accordance with requirements regarding efficient use of space and packaging for ease of transportation. The packages are placed on pallets to speed up the loading and handling, and significantly reduce transport damage and costs.

The products are delivered as components and elements with accompanying:

- dispatch note
- installation instructions
- inspection and maintenance instructions.

Installation and maintenance instructions can also be found on our website!

## Production time

- Delivery time varies between two (2) weeks and eight (8) weeks depending on product and season.
- The delivery time of standard products from the factory is usually four (4) weeks.
- Products with two weeks production time can be found from [lappset.com](https://lappset.com)

 Q14458 Adventure towers

# Installation

Each product comes with an installation guide, which you must follow to install the product. The installation guide can also be found on our website under the product in the product search. Components are clearly numbered in order to make the installation as easy as possible.

**Note:**

- Elevation and footing depths of the equipment must follow the installation instruction.
- The vertical parts must be vertical and the horizontal parts must be horizontal, as otherwise the planned inclinations in the equipment may not conform to safety norms.

**Minimum safety zones**

The safety zone to be followed for each product will be indicated in the general layout plan in the installation guide. Up-to-date documents can also be found on our website. Products may change slightly during the validity of this catalogue, so the safety zone must always be built according to the installation instructions provided with the product.

If the guidelines for minimum safety zones mentioned in the installation instructions are not followed, the installer may have to accept the consequences of this negligence and compensate for any injuries sustained within the minimum safety zones.

**Foundation**

Playground equipment and other items must be permanently fixed to the ground. As standard, the playground equipment is delivered as versions requiring deep, or underground foundations. Alternatively, the equipment can also be surface mounted. When placing your order, please specify if you wish to opt for surface mounting.

Some equipment can be fixed to the ground using anchoring parts that must be ordered separately. The traditional use of concrete foundations is only required in certain cases. Details of specific foundations are given within the installation instructions.

**Base**

According to the EN standards, playground and outdoor exercise equipment must be assembled on a surface the critical fall height of which corresponds to the fall height of the equipment. The product standard determines the detailed requirements for the base and safety zone. The most common standards are:

- Playgrounds: EN 1176-1177
- Outdoor fitness equipment: EN 16630
- Arenas: EN 15312
- Parkour equipment: EN 16899

**Base material**

- The safety tiles made from rubber shreds are an easy-to-clean alternative for use as a safety surfacing.
- If loose materials, such as sand with a grain size of 0.2-2 mm or gravel with a grain size of 2-8 mm, are used, the required layer thickness varies between 25 and 40 cm.
- Elements can be assembled on top of grass, as long as their critical fall height does not exceed 1 m.

**Fall zone**

- In addition to the shock-absorbing base, there must be at least 150 cm of falling space extending around all parts of the product upon which users can climb.
- Most countries prohibit allowing sharp and hard objects in this area, such as cut stones or rough tree stumps. However, different countries may have different regulations regarding this space.

More detailed information on safe floor materials will be supplied with the assembly instructions.

# Commissioning of the playground or exercise area

Before using the play or exercise area, a handover inspection should be performed. The handover inspection, log book and installation instructions accompanying the order confirmation or delivery are provided to facilitate the inspection into the safety and correct installation of the park area.

Please remember that the play or exercise area should not be used until the site has been cleared and the area declared safe!

**Inspection and maintenance**

By proper servicing, you will ensure the continuous safety of the park. Lappset's general product warranty is also subject to compliance with the maintenance instructions. Maintenance instructions can be found on our website!

- When drawing up the inspection and maintenance plan of the park area, consider the park's usage rate and susceptibility to vandalism.
- Carefully document the inspection and maintenance procedures.
- Remember that access to the area must be restricted, if the playground or exercise area is not safe to use due to lack of maintenance.

**Product modifications**

We develop our products constantly in line with international standards concerning both safety and quality. Therefore we reserve the right to modify our products and prices.

**Patents and design protection**

Lappset Group Ltd has valid patents and design protection for its products. All rights reserved.

# Warranty

These warranty terms cover the products and components manufactured by Lappset as specified below.

The warranty starts on the day the product is delivered from the Lappset Group factory. The warranty is valid only on the condition that the foundation, installation and maintenance work have been carried out and documented according to Lappset Group's instructions. A logbook of the handover inspection and documents for maintenance work carried out have to be presented, if necessary.

Find detailed warranty terms:  
[www.lappset.com/Services/For-designers/Warranty](http://www.lappset.com/Services/For-designers/Warranty)

## Warranty times

- 20 years

  - steel components and structures
  - elements made of high-pressure laminate (HPL)
  - Linax-treated parts
- 15 years

  - aluminium components
  - fibreglass-reinforced plastic components
  - preserved wooden parts with no ground contact
- 10 years

  - preserved wooden parts with ground contact (in Europe)
  - concrete parts
  - surface finish of steel and aluminium components
  - climbing grips
- 5 years

  - preserved wooden parts with ground contact (outside Europe)
  - wooden parts with paint but without preservation (Halo and Play Planetarium)
  - plastic and fibreglass parts
  - steel reinforced nets and ropes
  - springs
  - parts made from jatoba
- 3 years

  - rubber and rubber-coated parts, polyurethane parts
  - moving parts, malfunctions
  - wooden bodies of spring mobiles
  - steel cables, chains
  - surface finish of other than steel and aluminium components
  - painted or surfaced plywood boards
  - wooden parts with paint but without preservation (Park furniture)
- 1 year

  - ropes without steel reinforcement
  - textile elements and stickers
  - plaster-coated parts
  - electronic components
