Kandou is playground activity that helps children develop a variety of movement patterns in a fun, engaging way. The Kandou activities are progressive; designed to be inclusive yet increasingly challenging as the children improve. The fundamental movement skills developed through Kandou are transferable to a range of sports and activities. At Kandou and Creative preformed markings, we believe in helping young people to become more competent and confident in their performance. To be physically literate is important not only in sport but in everyday life.

## Mile a Day

Daily Mile Challenge  
26 laps  
= 1 mile

Mile a Day is being used by schools to improve the physical, emotional and well-being of children. It is a new way to allow children of all ages and ability to have the opportunity of being involved in a fun daily exercise.
