

 **LAPPSET®**

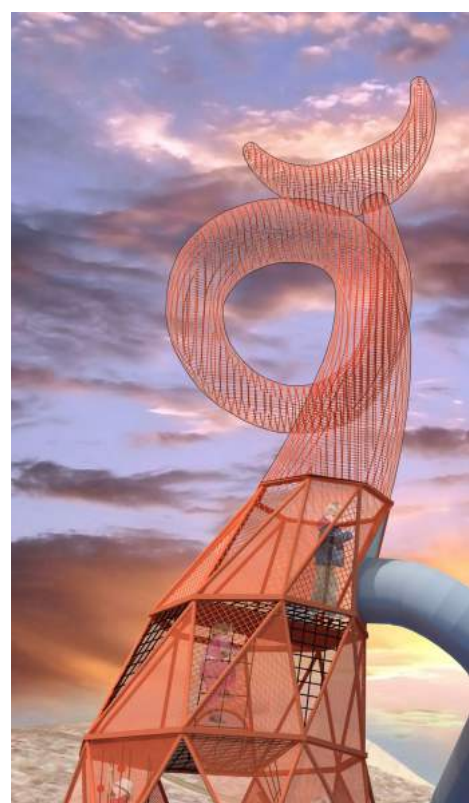

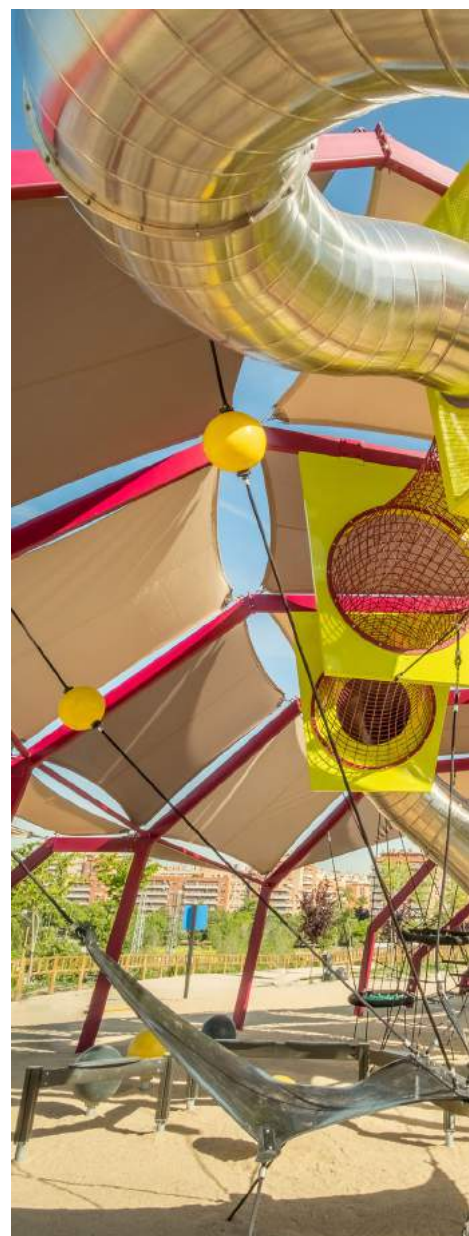

**Rethink the
playground**

Playful architecture

Is it a diving whale or a creature from outer space? Either way it caught your eye, didn't it? Lappset Premium is the way to go when our ready-made solutions do not fit your plan and you want something completely different and unique. Our design team can help you to create modern and memorable customized playgrounds which add character to the neighborhood and provide a place for play and socializing.

Lappset Premium combines architectural elements, art and intriguing structures into striking landmarks and memorable playground experiences. Their interactive and unique elements set your imagination free and challenge our perceptions of playgrounds.

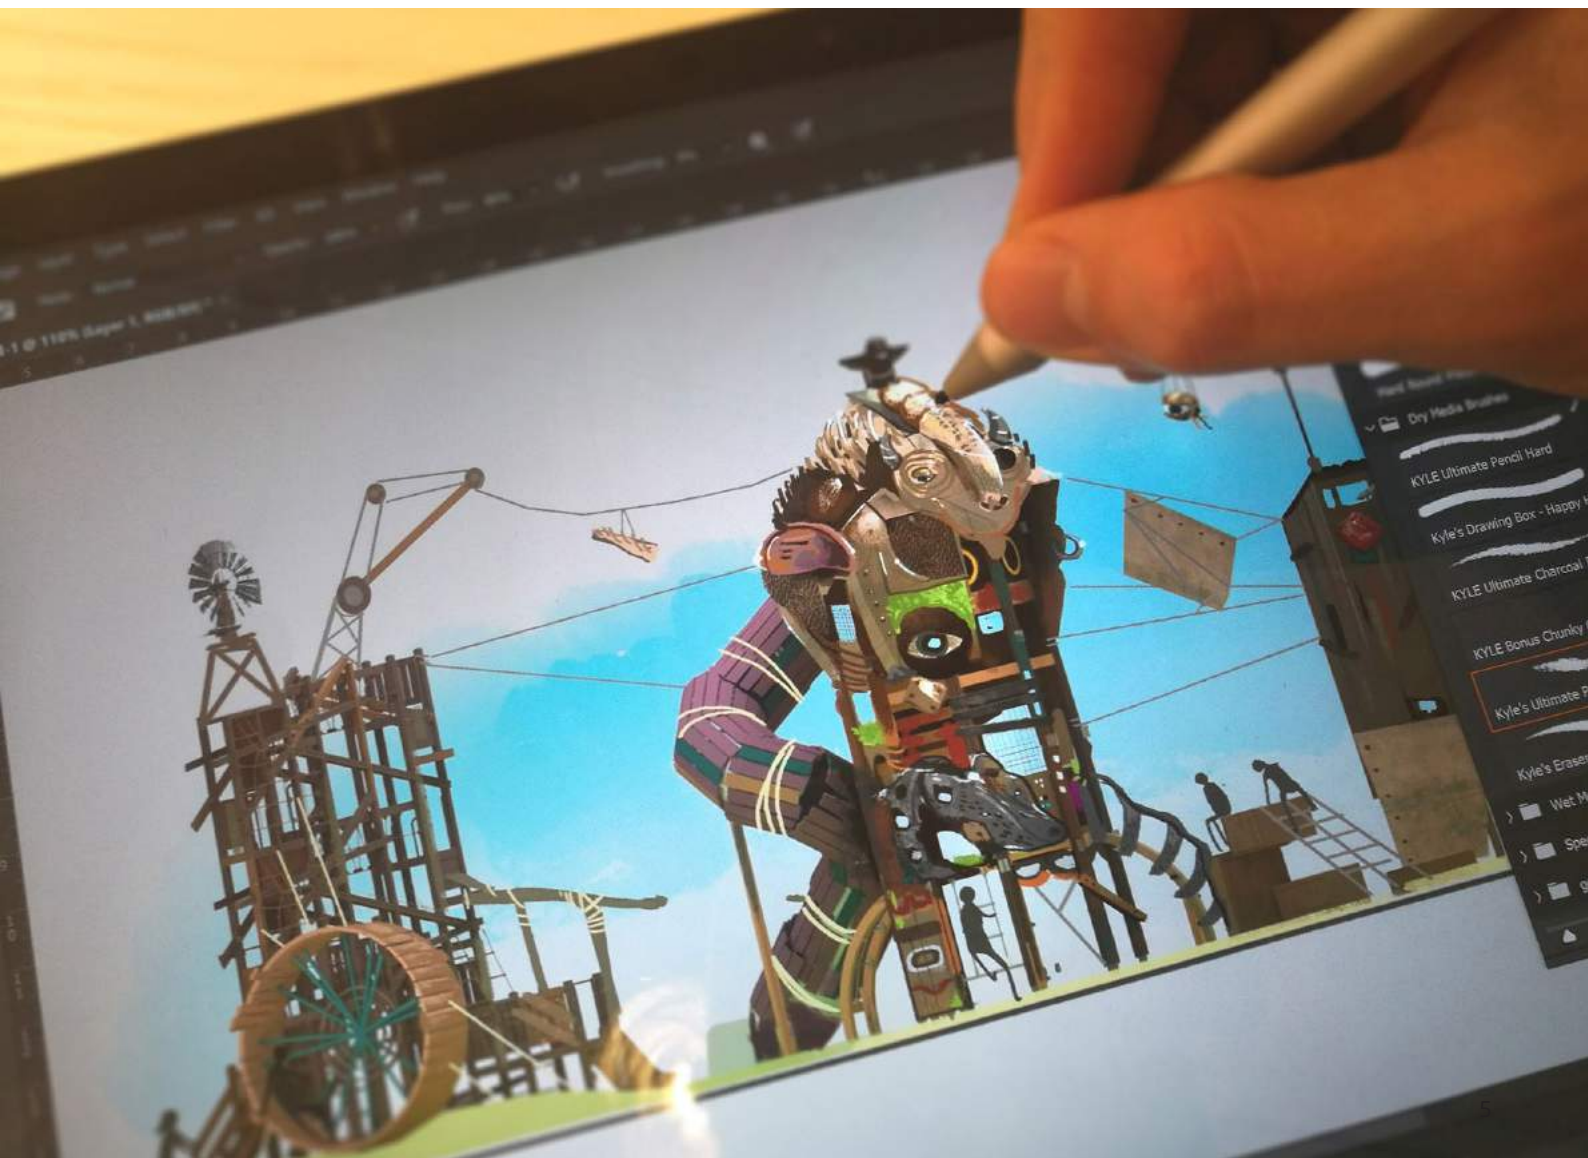

Designing with experience and playfulness

The most important thing to remember when planning a destination playground is to let imagination flow. Be wild, go crazy and have fun! We take care of the rest.

Lappset team helps you to design a unique playground according to your wishes. Our design team consists of leading landscape architects and playground equipment designers who know how to create practical yet fascinating play areas. We promise to give you our best ideas and help you to come up with the right solution for your location.

- 1 **STORY** Creating the story of the playground together.
- 2 **DESIGN** Planning the concept and the designs according to safety standards.
- 3 **BUILD** Manufacturing and installing the playground.
- 4 **PLAY** Inviting the local community to a grand opening and letting the play begin!

Dino

Is this the biggest dinosaur in the world? At least it's the friendliest one and invites children to come and play. In this case the client wanted a striking landmark on top of a hill that would be visible from a long distance. This is how the almost 40 meters long modern Dino was born. The Dino includes many play functions from slides to climbing and balancing elements.

1 AERIAL CABLEWAY
Favourite of many!

2 BALANCING
Balancing develops coordination.

3 SLIDING
Three steel tube slides provide endless fun.

4 CLIMBING
Various climbing options.

5 HANG AROUND SPOT
Share your secrets with friends.

Main material: Metal
Impact area: 140 m²
Age: 2+
76 users
L: 30 700
W: 13 950
H: 7 000
Max. fall height: 3000

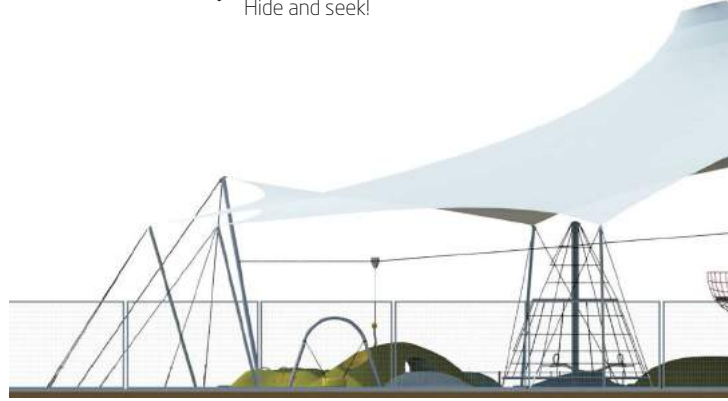

Olives

Olives playground equipment combines funny shapes, lofty height and exciting climbing tracks which go through netframe tunnels from one olive to another. The route back to the ground goes quickly via fun tube slides. This architectural and adventurous play structure provides a dream climbing place which develops children's physical strength and coordination. Who will reach the highest olive first?

Olives playground is available in two sizes: M and L.

1 HIDEOUTS
Hide and seek!

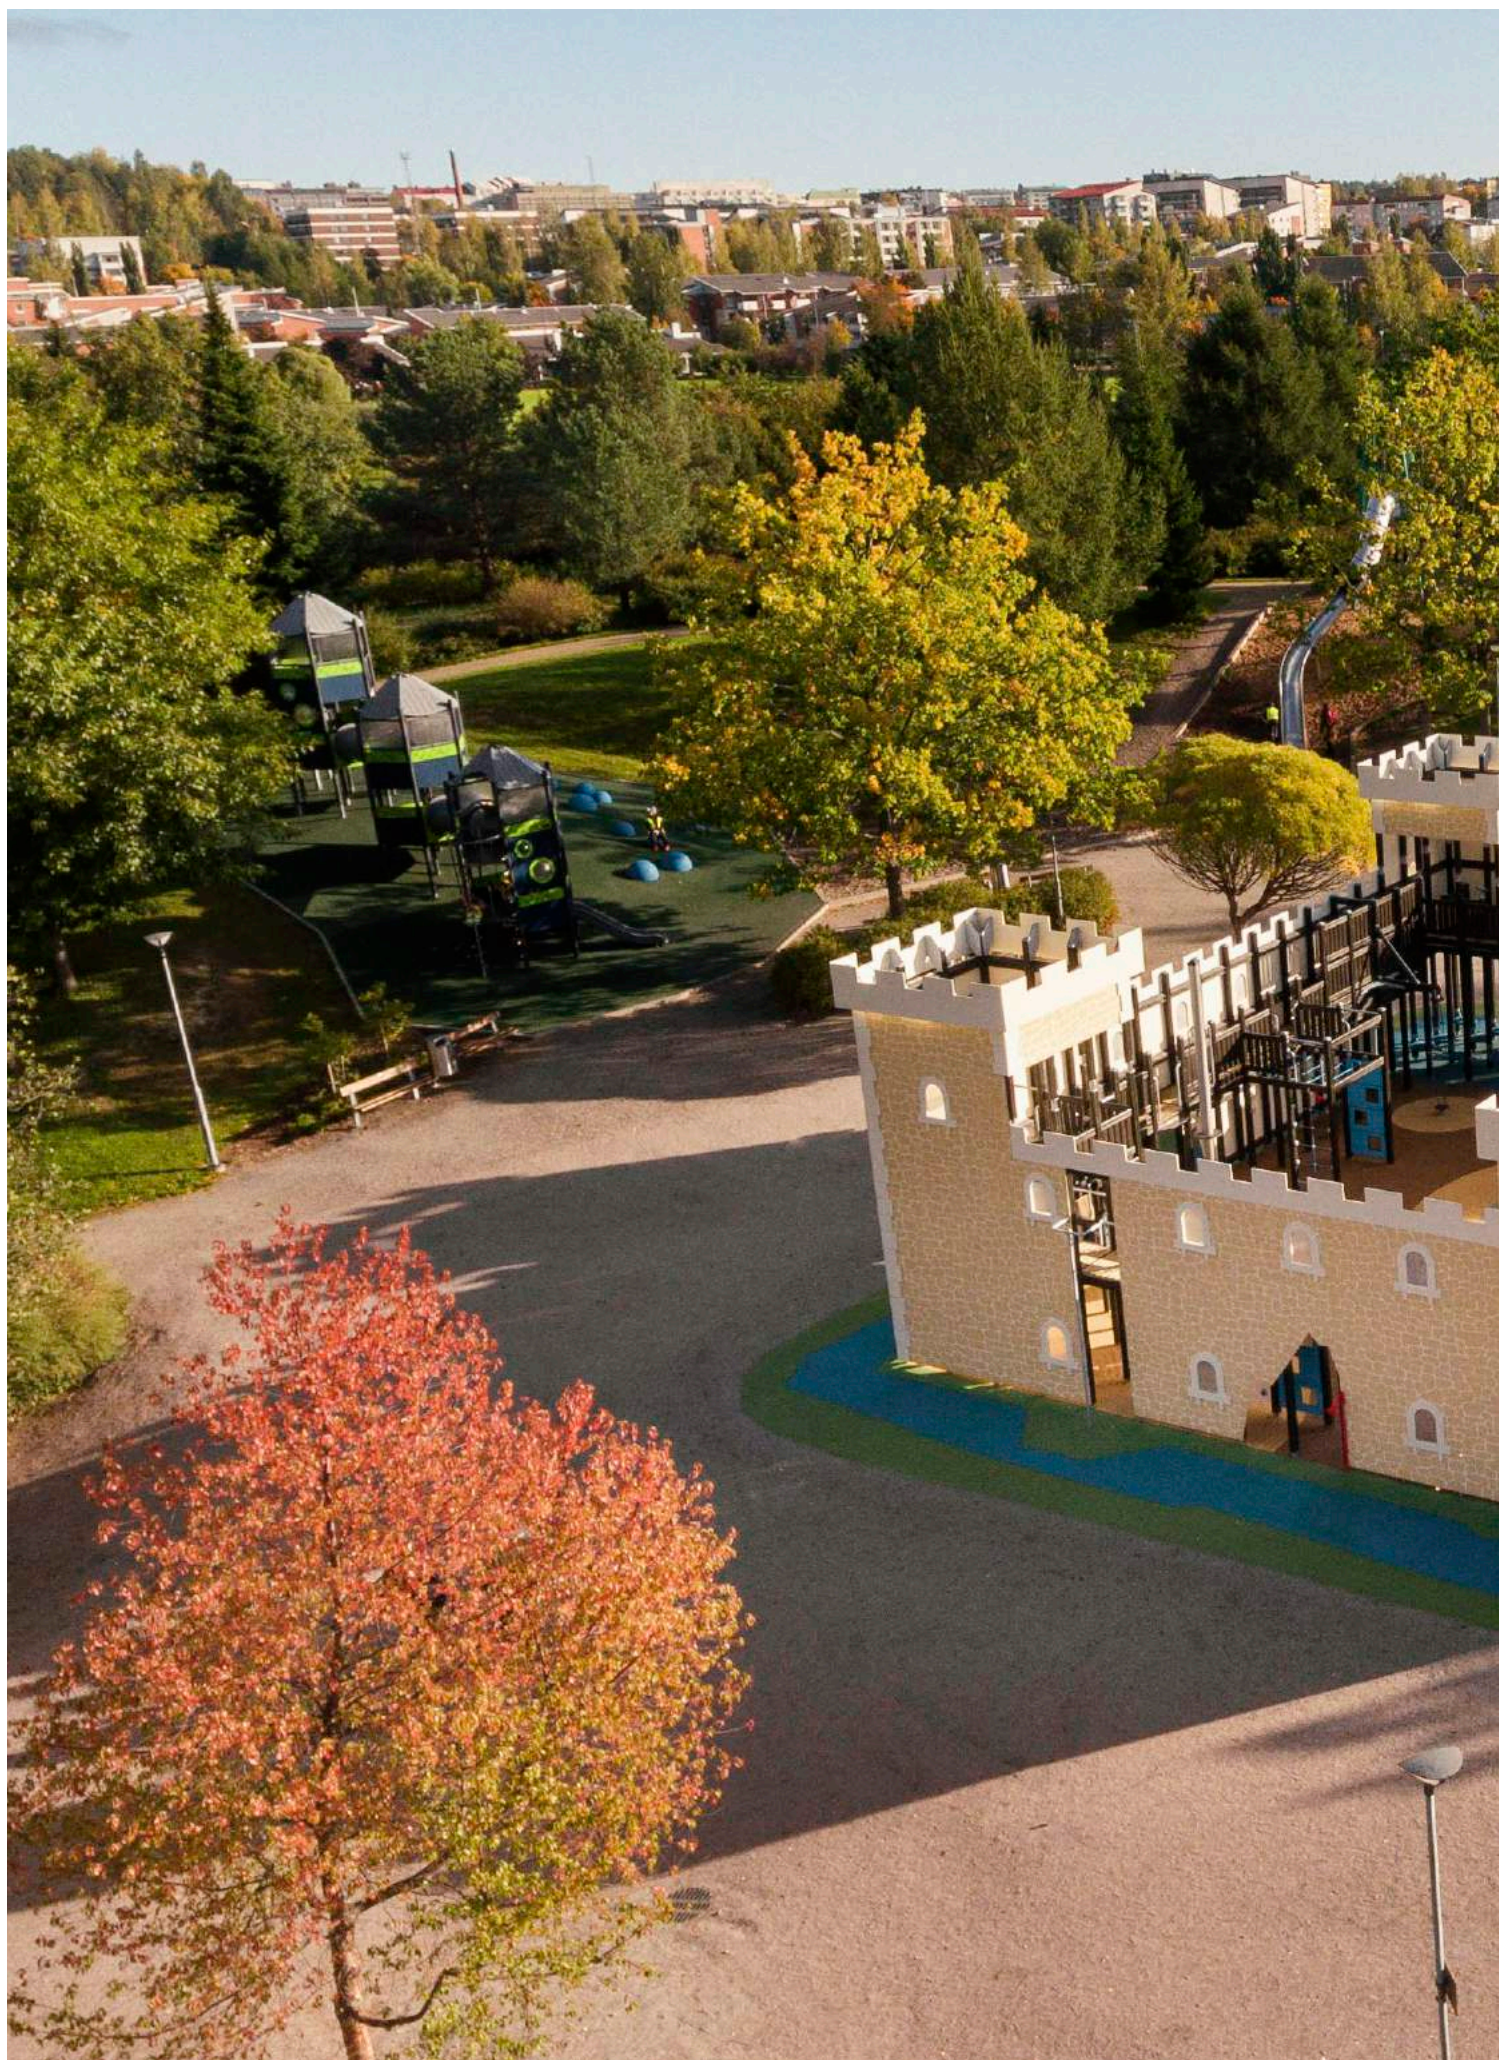

3 SLIDING
Two steel tube slides.

2 CLIMBING
Climb up, slide down.

Main material: Metal
Impact area: 20 m²
Age: 2+
22 users
L: 10 010
W: 12 610
H: 12 000
Max. fall height: 1 000

Castle of the kind dragon

Who wouldn't like to play in a medieval castle? Especially if the castle has interactive dance arch, voice tubes, DropZone elevator and many other fun play elements. This custom-made castle has it all and it was designed for different age and user groups. Special attention was paid to accessibility and participation.

The functions and their placement were made in such a way that the play is meaningful and challenging enough while being safe. And there is one more thing to keep the little players safe: this castle is guarded by a kind dragon.

- 1 SONA PLAY ARCH**
Has many games under one button
and it's fun for the whole family.

- 2 DROPZONE LIFT**
Exiting lift, exclusively from Lappset!

- 3 CLIMBING**
Develops balance and strength.

- 4 BALANCING**
Balancing, climbing, crawling and playing
- everything you need inside the castle!

Main material: Wood
Impact area: 466 m²
Age: +2
67 users
L: 15 600
W: 16 400
H: 5 800
Max. fall height: 2570

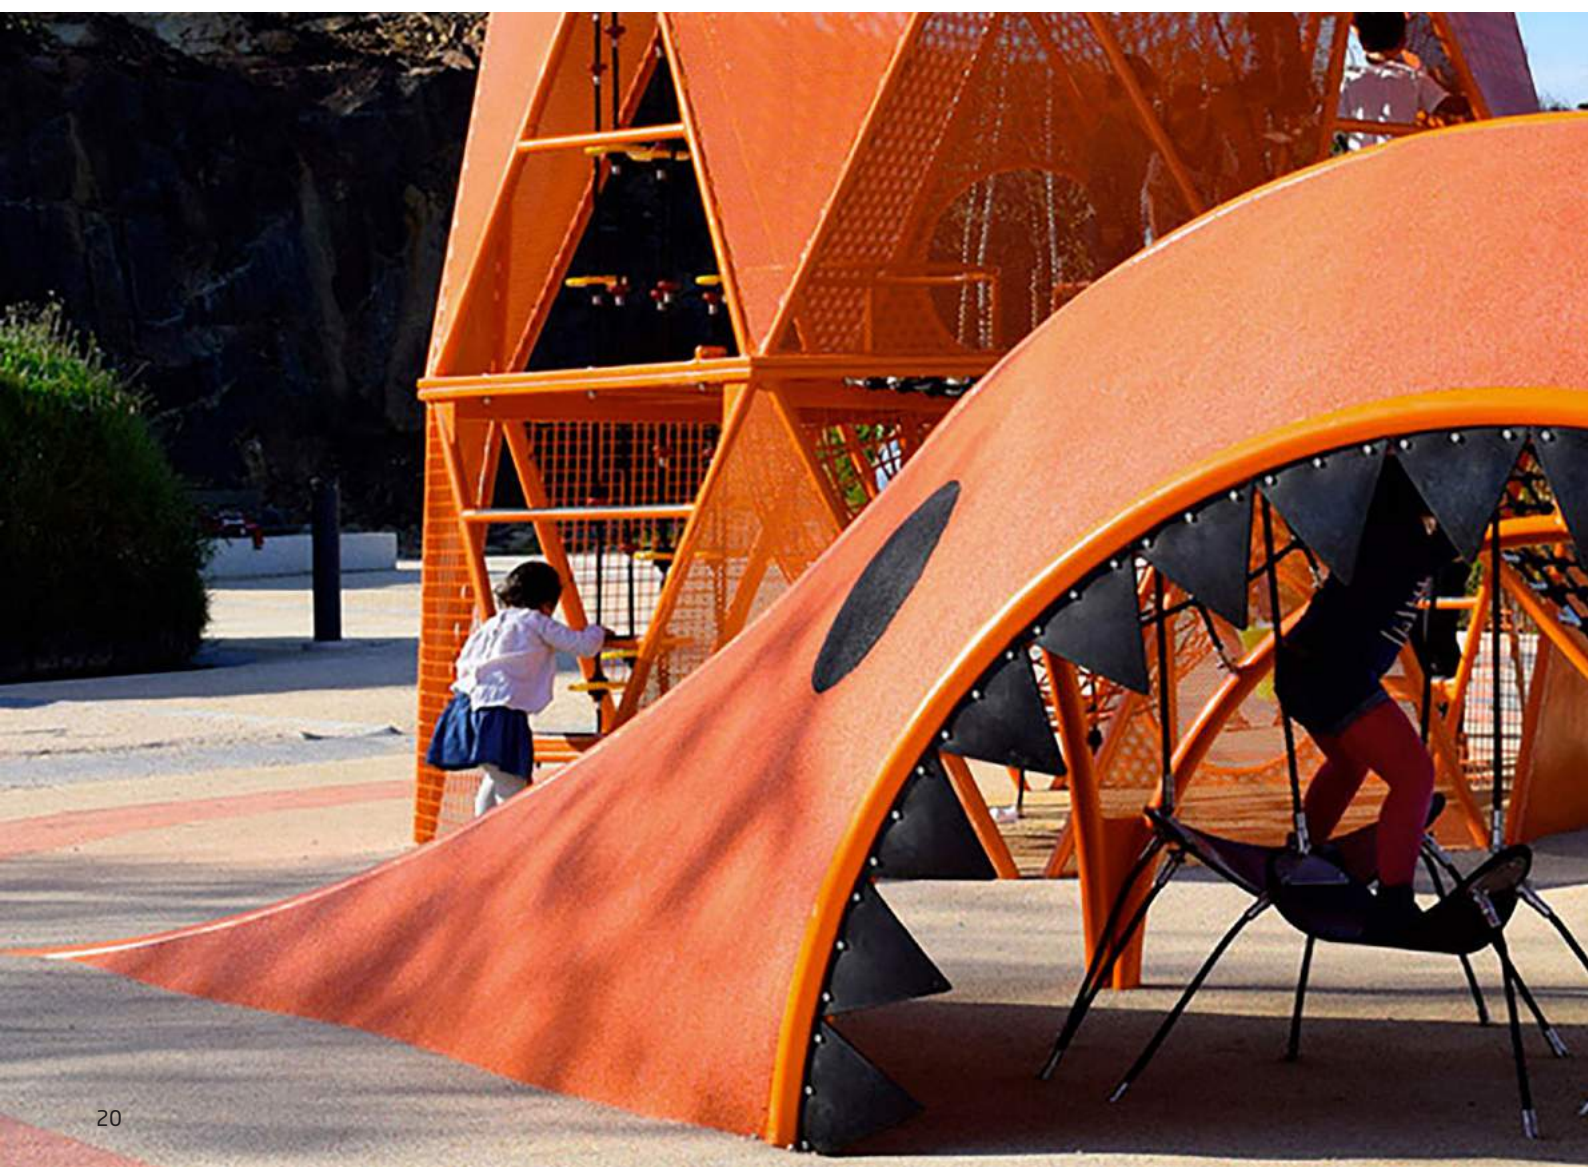

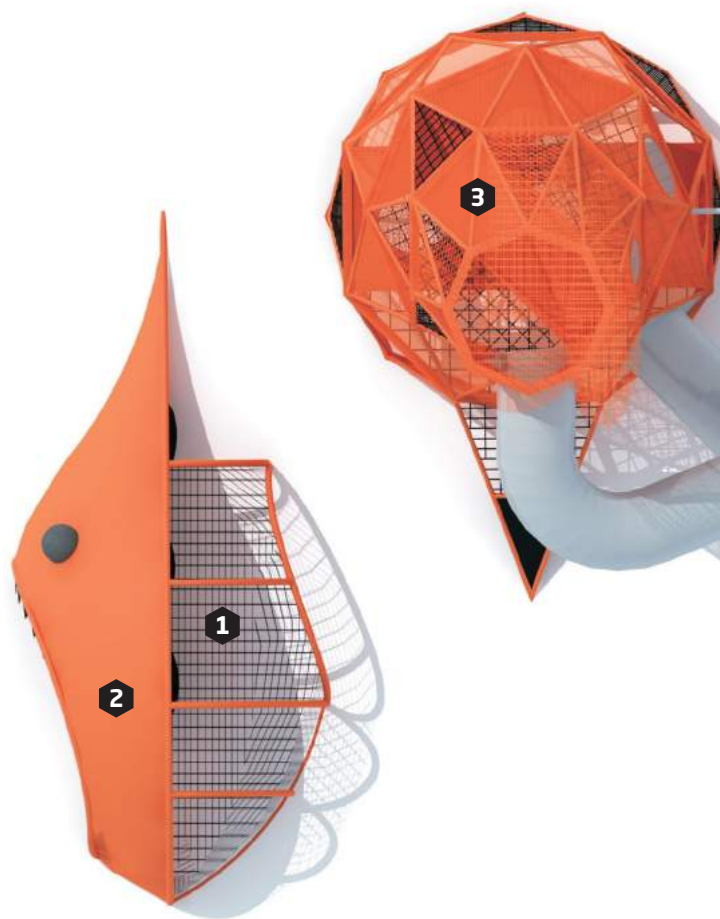

Marine Monster

We let our imagination run wild while designing. This sculptural playground is a cityscape of the future made for all senses. It is a stunning landmark which includes many activities and triggers the imagination of both children and adults.

Remember, there is no rule that grown-ups shouldn't get off the bench and go play with the children!

1 3 CLIMBING

Climbing in the nets develop motor skills and strength.

2 BALANCING & HIDING

Play hide and seek!

4 SLIDING

Two steel tube slides offer fun times for everyone.

Main material: Metal
Impact area: 98,35 m²

Age: +2

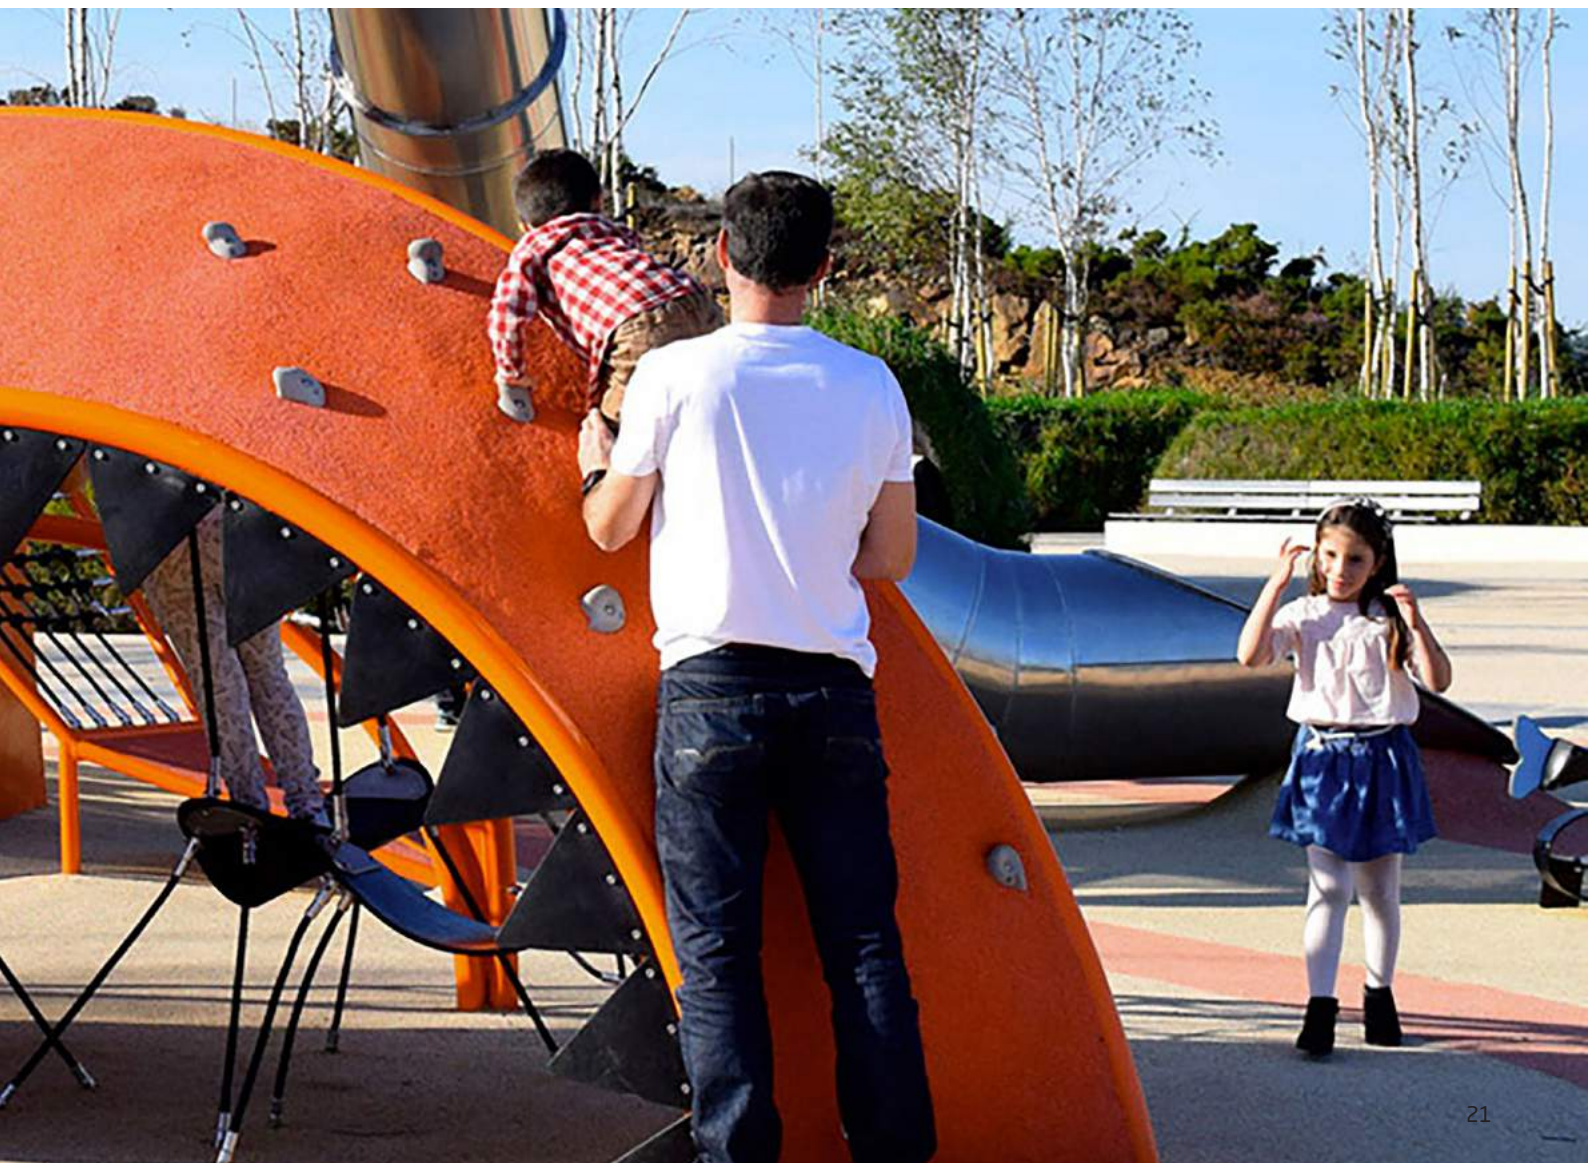

67 users

L: 16 600

W: 12 010

H: 13 740

Max. fall height: 1500 cm

Wall-Holla

Wall-Holla is an exciting play center with several floors. The colorful network structure of Wall-Holla makes imagination run wild and inspires children of all ages to discover different ways of exploring its undulating maze. The structure is a steel net frame, inside which colorful strips twist and turn. The Wall-Holla offers various options for customization.

There is no need to worry if you only have limited space available. We are always coming up with ingenious ways to build compact solutions that appeal to children of all ages and fit the surroundings. Wall-Holla is one example of a play equipment which is ideal for a narrow space.

1 SLIDING

Slide can be placed on the side or on the end of Wall-Holla.

2 FIREMAN'S POLE

Fun sliding through a hole in the wall.

3 OPENINGS FOR ENTRY AND EXIT

Easy access inside and out.

4 CRAWLING

Nets and platforms create a fun maze inside the Wall-Holla.

5 CLIMBING WALL WITH CLIMBING GRIPS

Climbing grips allow vertical and horizontal climbing along the outer wall without allowing access to the top.

14 Modules with internal slide

Main material: Metal

Impact area: 191,60 x 62,41 m²

Age: 5+

42 users

L: 16 160

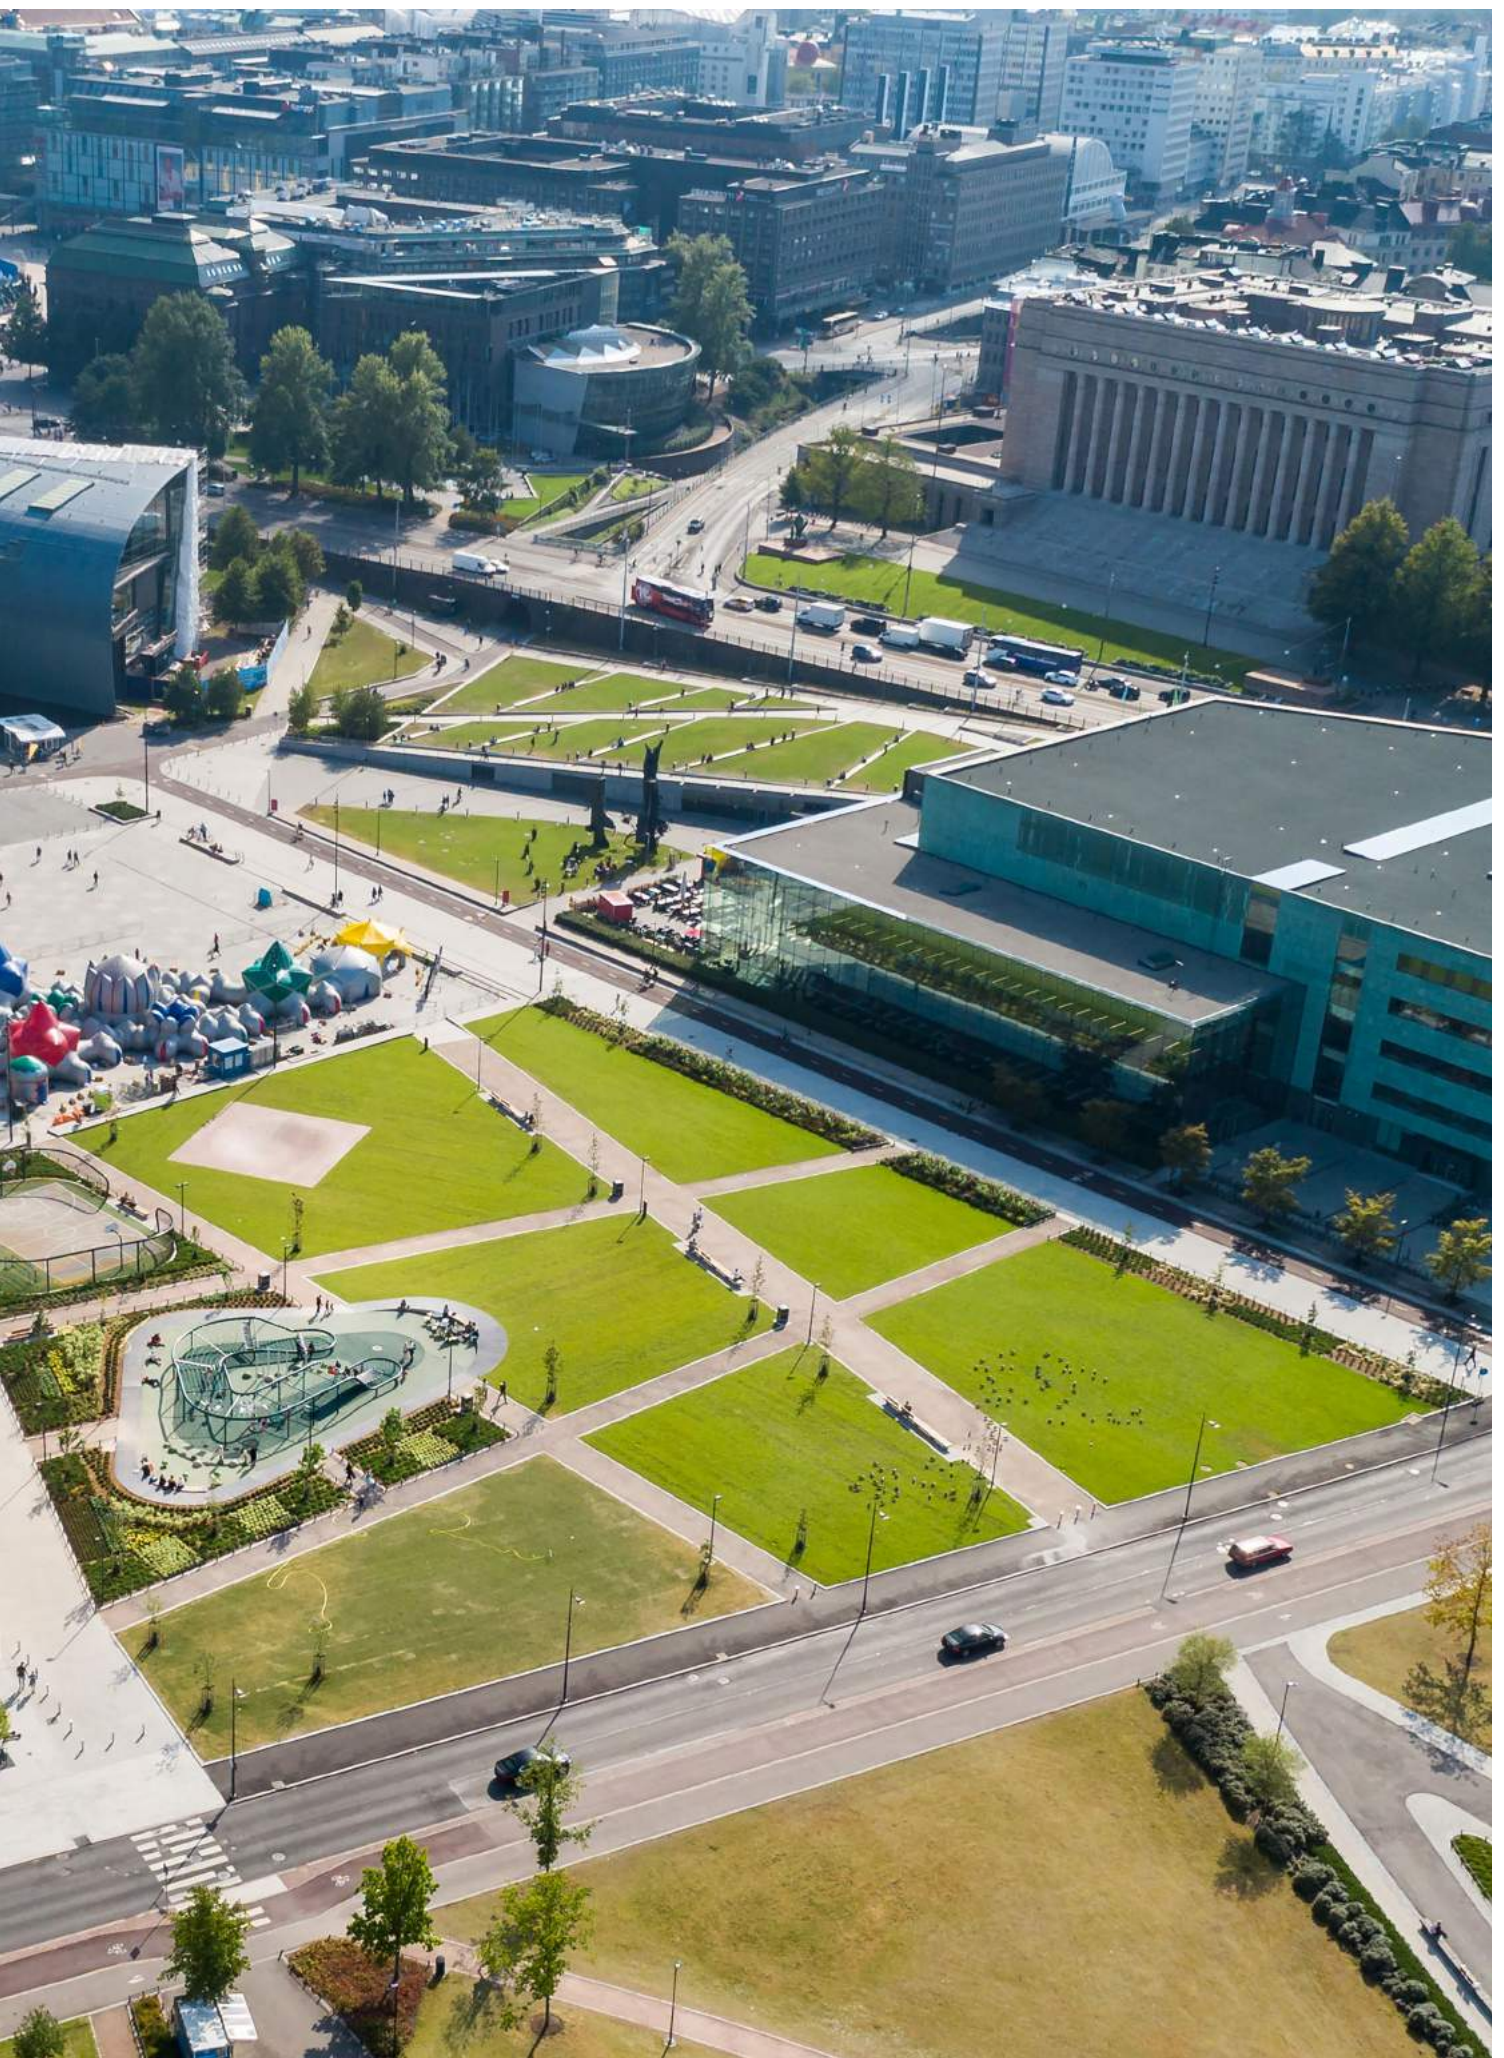

W: 3 843

H: 4 902

Max. fall height: 2800

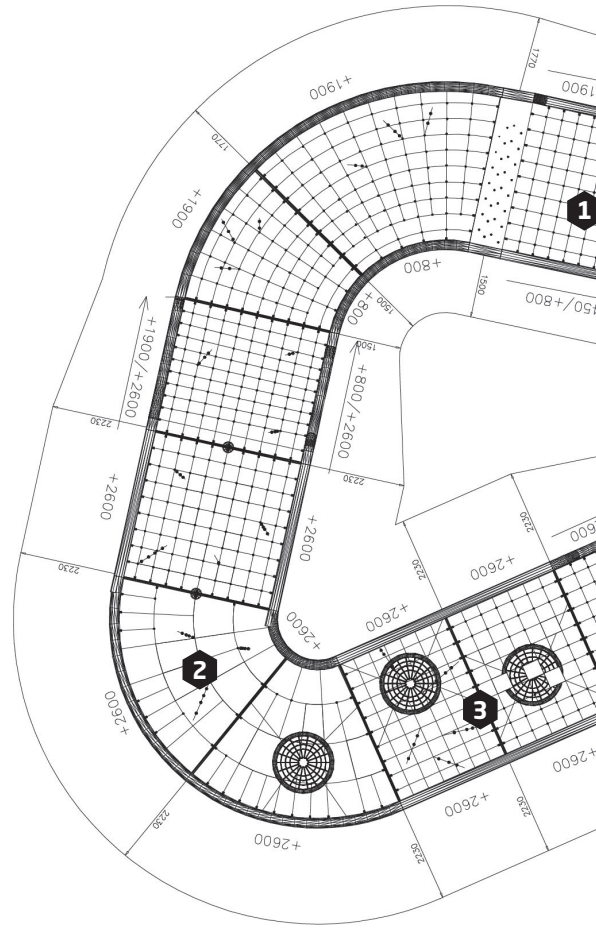

Ode to climbing

This special designed playground equipment is shaped like the letter C and it's 2,5 meters high and 30 meters long. Climbing on the huge steel net frame is fun and spider swings and balancing elements give more play value to this unique activity equipment.

A playground should fit well to its surroundings. Our design team always takes into account the special characters or challenges of the environment in the planning process. For instance, this climbing structure is in an urban area right next to a new modern and eye-catching library building. The designer wanted the play equipment to fit in the design language and scale of the central library as well as to blend in with the surroundings.

2 BALANCING

3 RELAXING

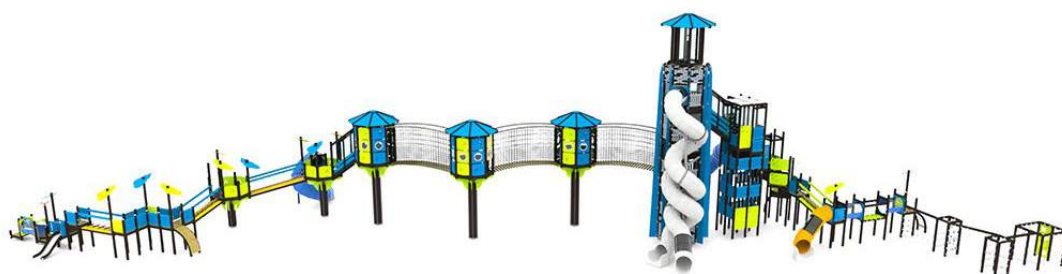

4 SLIDING

Main material: Metal
Impact area: 294,2 m²
Age: 3+
 56 users
L: 18 200
W: 14 890
H: 2 600
Max. fall height: 2 600

We are experts in wooden playground solutions

Wood is an excellent and versatile material when creating unique playgrounds. It brings warmth and natural beauty to the parks that will last for years. Wood is used in many of our unique, tailor-made projects, here just a few examples!

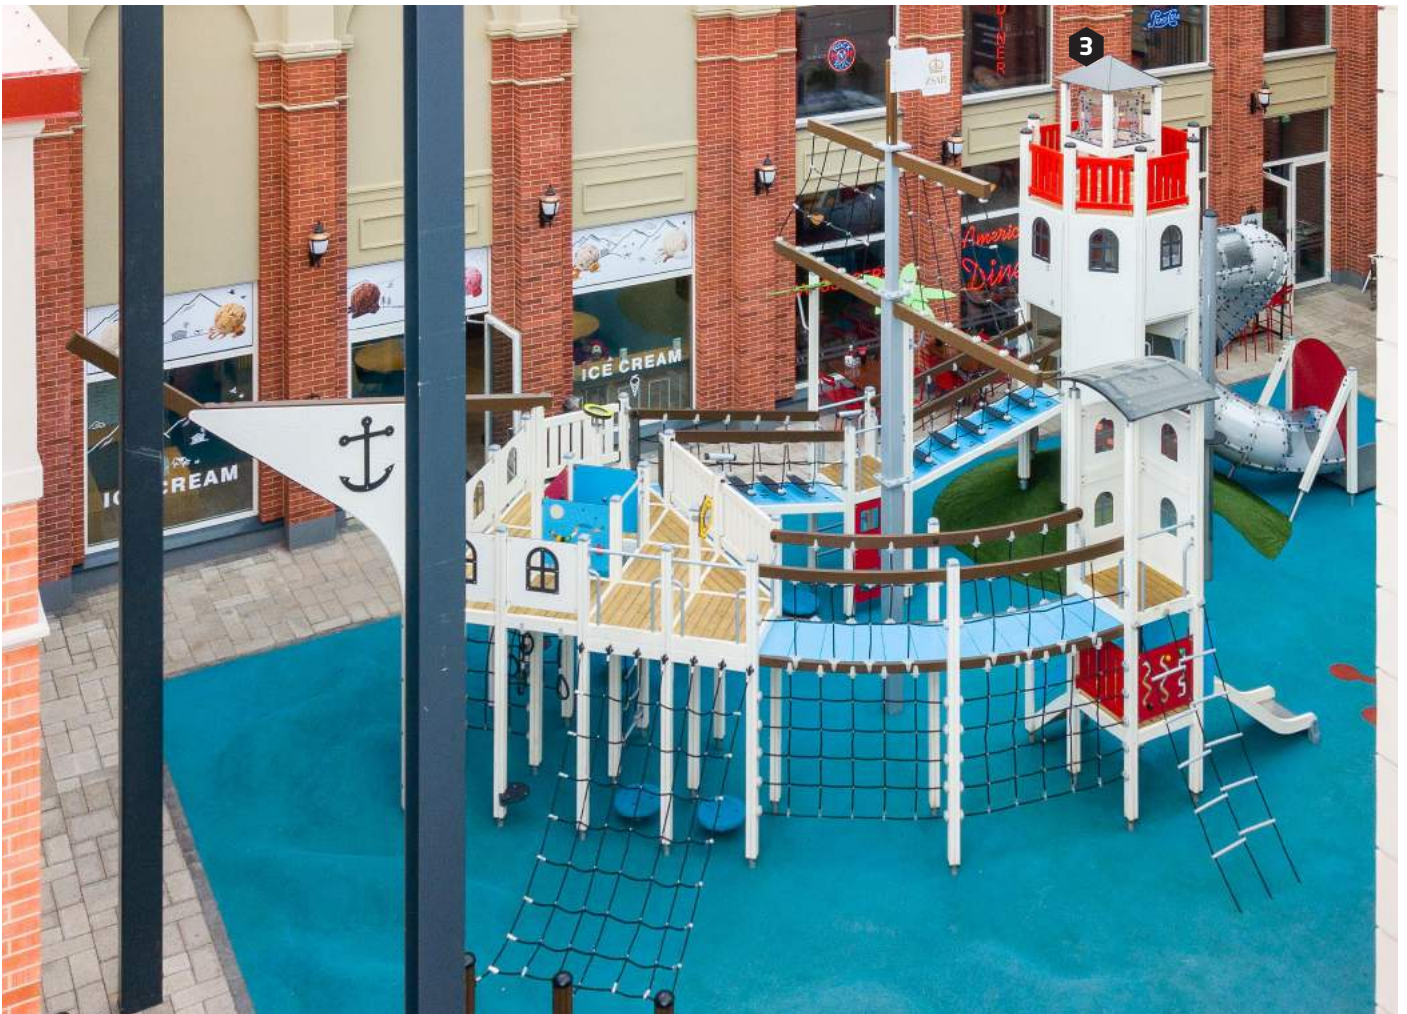

1 ADVENTURE FOREST

2 FINNO SKYLINE TOWN

3 ZSAR SHIP AND LIGHTHOUSE

We'll design a playground of your dreams!
